

Press Release

A new website for VPInstruments!

Delft, 20 November 2019

VPInstruments proudly presents its new website: www.vpinstruments.com. The website of VPInstruments, developer and supplier of energy management solutions, has been a dynamic forum that keeps changing constantly. Over the last year, VPInstruments, concluded that their website needed improvement.

A lot of work has been done behind the scenes to make the website significantly faster, user-friendly and more modern. In particular, the layout for both the desktop version and the mobile version is a big difference. Thanks to the new and simplified structure, navigation and finding the right information has been greatly improved. Moreover, we have now a dedicated place within the website to share interesting information with our distributors and end customers, including eBooks, articles, webinars and videos.

Now, customers can find the correct information faster and easier. Furthermore, the new website is ready for upcoming trends and even more expansions!

About VPInstruments

VPInstruments offers industrial customers worldwide easy insight into energy flows. We believe that industrial energy monitoring should be easy and effortless, to enable insight, savings and optimization. VPInstruments products are recommended by leading energy professionals and offer the most complete measurement solution for compressed air flow, gas flow and electric energy consumption. Our monitoring software VPVision can be used for all utilities, and enables you to see where, when and how much you can save. Our products can be found all over the world. We serve all industrial markets, for example; automotive, glass manufacturing, metal processing, food and beverage and consumer goods. We can also help your industry. Let us open your eyes and start saving energy.
